2.  Comment. The fuel depot of the First Gds Iec2 Army is located in Radebeul-West. The volume of outgoing fuel shipments was slightly higher than in the preceding months. 

50X1-HUM

3.  Comment. The fuel depot of the Eighth Gds Army is located in Muenchenbernsdorf. In conjunction with summer maneuvers, the outgoing fuel shipments increased by about 50 per cent compared with the preceding months. 

50X1-HUM

4.  Comment. The fuel depot in Riesa serves the bomber units of the Twenty-Fourth Air Army. Outgoing fuel shipments in May 1953 totaled 168 carloads, which corresponds to the level observed in May 1952. Outgoing shipments observed in June 1953 were strikingly low. This may be connected with the transfer to stations outside East Germany of the two bomber units involved.

5.  Comment. A small army fuel dump is also located at Riesa-Harbor.
